

Privacy Policy

Playr Cinema does not digitally track any user behavior or actions. There are no proprietary or 3rd party tracking frameworks contained within this app. All data created or accessed within Playr Cinema, ranging from web browsing data to the user's personal files, is stored offline within the app data on the user's device.

Playr Cinema does not guarantee against tracking from websites accessed through the Cinema Web Browser unless using a VPN or equivalent.

There are no user accounts associated with Playr Cinema, and all user data is stored locally and anonymously on the user's device.

Sending in a bug report or feature request from Cinema Support does not have any metadata associated with your device or personal information. All reports are privately monitored by Playr Inc.

In regards to Playr Cinema Games, please reference the [Playr - Make Your Own Games] Privacy Policy, which describes the privacy policies outlined within the Playr Game Network. Playr Cinema users do not require a Playr account to access games unless premium game templates are unlocked through In-App-Purchases, which require a Playr account.
